Introduction:

The Indian Federation of Computer Science in Sports under the auspices of International Association of Computer Science in Sports is conducting the **INTERNATIONAL WORKSHOP OF RECENT TRENDS IN PHYSICAL EDUCATION AND SPORTS INDUSTRY 2016** on 26th and 27th June 2016 at **Federation House, FTAPPCI, Red Hills, Hyderabad, Telangana**. In this Workshop the lectures will be delivered by Foreign and Indian Experts.

The Indian Computer Federation has been formed with the sole intention to develop the use of computer technology for development of sports performance and techniques. Computer Science has become an important interdisciplinary subject for Sport Science. This is due to the fact that the use of data and media, the design of models, the analysis of systems etc. increasingly requires the support of suitable tools and concepts which are developed and available in Computer Science. As a consequence the new scientific discipline "Computer Science in Sport" was established at International Level to achieve the high level of performance in sports.

ABOUT HYDERABAD

Hyderabad is the capital and largest city of the southern Indian state Part of Telangana Region. Hyderabad was historically known as a pearl and diamond trading centre, and it continues to be known as the City of Pearls. Many of the city's traditional bazaars, including Laad Bazaar, Begum Bazaar and Sultan Bazaar, have remained open for centuries. Hyderabad is also a Technology City of India.

Hyderabad is the capital of the southern Indian state of Telangana Occupying 650 square kilometres (250 sq mi) along the banks of the Musi River, it has a population of about 6.7 million and a metropolitan population of about 7.75 million, making it the fourth most populous city and sixth most populous urban agglomeration in India. At an average altitude of 542 metres (1,778 ft), much of Hyderabad is situated on hilly terrain around artificial lakes, including Hussain Sagar—predating the city's founding—north of the city centre.

Established in 1591 by Muhammad Quli Qutb Shah, Hyderabad remained under the rule of the Qutb Shahi dynasty for nearly a century before the Mughals captured the region. In 1724, Mughal viceroy Asif Jah I declared his sovereignty and created his own dynasty, known as the Nizams of Hyderabad. The Nizam's dominions became a princely state during the British Raj, and remained so for 150 years, with the city serving as its capital. The city continued as the capital of Hyderabad State after it was brought into the Indian Union in 1948, and became the capital of Andhra Pradesh after the States Reorganisation Act, 1956. Since 1956, Rashtrapati Nilayam in the city has been the winter office of the President of India. In 2014, the newly formed state of Telangana split from Andhra Pradesh and the city became joint capital of the two states, a transitional arrangement scheduled to end by 2025.

Hyderabadi cuisine comprises a broad repertoire of rice, wheat and meat dishes and the skilled use of various spices. Hyderabadi biryani and Hyderabadi haleem, with their blend of Mughlai and Arab cuisines, have become iconic dishes of India. Hyderabadi cuisine is highly influenced by Mughlai and to some extent by French, Arabic, Turkish, Iranian and native Telugu and Marathwadacuisines. Other popular native dishes include nihari, chakna, baghara baingan and the desserts qubani ka meetha, double ka meetha and kaddu ki kheer (a sweet porridge made with sweet gourd)
